

CHALLENGE COURSE & Specialty Products

Sterling Rope has been a leader in the life safety rope market for over 15 years. During this time we have developed a reputation for innovation, customer service and commitment to the professionals we serve.

We understand that challenge course builders and operators have unique requirements and expectations. We offer a full range of rope and cord that is ideally suited to your application. Whether it's long-lasting belay ropes for your rock wall, low elongation ropes for your high elements, durable static ropes for construction or heavy duty rescue ropes you can rely on, Sterling Rope has what you need.

SafetyPro™

- 100% Nylon
- Great for top rope where a dynamic rope is not needed
- Suitable for rescue or tether lines
- Available in 10mm, 10.5mm or 11mm diameters

HTP Static™

- 100% Polyester
- Ultra low stretch
- Ideal for rescue pick offs
- Perfect for Tyrolean traverse or other high tension activities
- Great for hauling building materials
- Available in 3/8", 7/16", 1/2" & 5/8" diameters

Dynamic

- Extra-thick sheath for added durability
- Available in 100M, 200M or custom cut lengths
- Available in 10.1mm Slim Gym, 10.4mm Rock Gym or 10.7mm Big Gym

Sherpa Haul Tips™

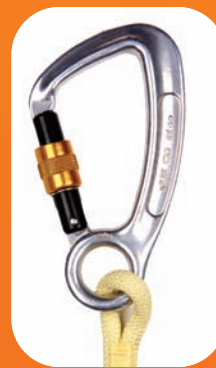

- Integrated attachment point for haul lines
- Reduces need to lobster-claw
- Simple to use
- No special knots to learn
- Saves time

Other Great Products

- ChainReactor™ adjustable webbing tether
- 2mm accessory cord for haul lines
- Custom sewn rope and webbing products
- Prusik cord and webbing spools

Hardware

Sterling Rope will soon be carrying a full line of carabiners, rigging plates, and pulleys for both work and rescue.

Visit our website for updated hardware products.
