

SAFETECH™

- 8mm High Heat Resistant/High Strength Personal Escape Rope.
- 100% Technora® sheath and nylon core.
- Technora sheath offers the best heat resistance for extreme temperatures. Offers high resistance to acids, alkalis, organic solvents, sea water, and steam.
- Compact easy to pack in pocket or bag.
- Technora provides the highest level of abrasion and cut-resistance compared to other high tenacity fibers.
- Certified to NFPA 1983, 2006 edition, Escape rope.
- Sewn eyes utilize Technora thread which maintain higher strengths and eliminates the need for knots.
- System includes 50' of SafeTech, Crosby Firefighter anchor hook, Safe-D carabiner and F4-50 bag.
- UL certified to NFPA 1983 Escape System
